REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art to the independent claims is Hasei (USP 6,319,377 or JP 11-23526). Claims 1 and 25 differ by specifying a porous member only in a first gas treatment chamber that is disposed between the gas detection chamber and the gas inlet. Claims 19 and 26 differ by setting forth the specified oxidation catalyst pumping cell. Neither of these features in conjunction with the remainder of the respective claims are disclosed or rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
